

# Costa Voyager

## The bijou big ship.

Costa Voyager is here: the ship for those who prefer a cruise on a more intimate and personal scale.

In this restrained, elegant ambience, you'll soon feel at home and meet new friends.

Costa Voyager is the most welcoming of ships – modern, compact and informal, where guests become friends over tapas at Gambrinus, with live music, or relaxing at the Bodeguita del Medio, our Cuban-style bar.

It's easy to find your way around on board and to meet up in the communal areas to share the excitement of each excursion.

Sipping an intimate cocktail in one of the elegant jacuzzis overlooking the stern will become a high point of every day.

Which sight will you find the most inspiring? The white wake of the ship standing out against the deep blue sea, while the horizon turns slowly pink...or the shows that light up the theatre every evening?

Jump on board to find out.
